 Portfolio

Fourth-year Computer Science student at the Higher School of Computer and Digital Sciences and Technologies - ESTIN, Bejaia, Algeria. As a dedicated full stack web developer, I specialize in building applications with both frontend and backend technologies. I'm seeking opportunities to apply my skills in real-world projects and develop innovative solutions.

EDUCATION

- **Higher School of Computer and Digital Sciences and Technologies - ESTIN** *2020 - Currently*
Master's degree, Data Science & AI
- **El hadj Lakhdar High School** *2017 - 2020*
Baccalaureate 17/20

TECHNICAL SKILLS AND INTERESTS

Technical Skills : Nodejs, Typescript, React, Next, Laravel

Currently exploring advanced features of the Laravel ecosystem for robust backend development and diving into Rust for system-level programming, focusing on safe concurrency and performance.

EXPERIENCES

- **Freelance** *2021 - Currently*
 - Delivered high-quality web solutions for various projects (+20 projects)
 - Worked with a diverse range of clients, including individuals, businesses, and companies
 - Served clients from Algeria and France
- **Full-stack web developer** *Dec 2022 - Jan 2023*
 - Software company (**black and yellow**)
- **Manager of the development department** *2022-2023*
 - At Google developer student club Béjaia
- **Mentor**
 - Mentor in the CODE RALLY hackathon (club : Bytecraft ESTIN) - May 2022
 - Mentor in the NASA SPACE APPS hackathon (club : Sirius ESTIN) - October 2023
- **Instructor**
 - Instructor of an android development bootcamp - 2021
 - Instructor of an backend development bootcamp - November 2023
 - Workshops (web and mobile app development) - 2021-2023

PROJECTS

- **The Success Agency's website**

the-success.net

The-success.net is a website developed for The Success Agency, a specialist in branding in Algeria. The site is built using Next.js, Mantine UI, and Framer Motion, providing a dynamic and engaging user experience.

- **Tutoring Classes Announcement Website**

PostiDZ

A Tutoring Classes Announcement Website that enables tutors to create and manage class announcements, list available classes for users to join, and share updates. It features real-time messaging for seamless communication and a rich text editor for crafting detailed announcements.

Technologies

- Frontend: React, Mantine UI
- Backend: Flask
- Database: SQLite (SQLAlchemy)
- Storage: Firebase

Features

- Create and manage announcements for tutoring classes
- List available classes and allow users to join
- Share announcements and updates with users
- Real-time messaging for communication
- Rich text editor for detailed announcements
